The following is a statement made by a member of the Advisory Committee:
The Times-Dispatch of Saturday morning had a report from the University to the effect that the Advisory Committee of the General Athletic Association of the University had nied protests for professionalism against some of the V. To say, however, that much feeling has been engendered among the undergraduate body as a result of the faculty's action, is only to half express it. No sensible man regards football or any other kind of intercollegiate sport as viral in itself, and the feeling that pervades the entire student body is not the result of disappointment so much as it is the result of a persuasion that an injustice has been done us; not intentionally, but, nevertheless, an injustice. And I make this statement fully aware of the deep disappointment prevalent here. No one not a resident of the University com-

Manchester Bureau, Times-Dispatch, No. 1102 11uh Sireet. No. 1102 11uh Sireet. The farewell service by ricy, it. M. Chandler last night was one of unusual interest. It was the farewell of one who goes forth into a new field with the knowledge that he has wen the heartlest appreciation of his present congregation and with their best wishes for his success in his new field. For four years Mr. Chandler has guided and di-checked the congregation of Central Methodist Church to their present high position of importance and influence in church affairs. He has endeared himself in that time to all the members, and it is with the greatest reluctance that they will see him depart from their midst.

An extremely large congregation was

present last night, and the church was packed, even the Sunday school room having to be thrown open to accommo-

llarly appropriate to the farewell of the pastor.

Mr. Chandler preached on the subject, "A New and Untried Way." In his sermon he reviewed the work of the past, outlined the work of the present and took a look into the future. He showed how the church, from a small beginning, had risen and grown as a power of importance and of necessary consideration in the cliy. A new organ had nearly been paid for, and nearly all the church indebtedness was paid up to date. \(\) At the close of the scryices many of the congregation came up and bade their pusior an affectionate farewell. Mr. Chandler is all ready for his departure, and will probably leave to-day for Danville, where the Methodist Conference is to be held.

Many Rumors Are Heard Regarding Probable Changes, But Little is Certain.

The Virginia Conference of the Methodist Episcopal Church, South, will mee in annual session Wednesday of this week in the Main Street Church, of Danville Every indication points to a largely attended and business-like meeting, emlivened by the brisk debates that neve livened by the brisk debates that never fail to distinguish a gathering of Virginia Methodists. The year has been fruitful in many things and the reports generally will be satisfactory and encouraging. The twelve-months were rounded out yesterday, when final edications were taken in all the Richmond churches.

scheduled to crop up at the present con-ference, though it is impossible to say what will develop in the eleventh hour. One of the most popular bishops in the church will preside, and this will have church will preside, and this will have a harmonizing effect. Two chief matters of special note and a number of smaller features will engage the attention of the body. The election of delegates to the General Conference will, as always, precipitate a lively fight, and the prop-osition to divide the Virginia Conference will create considerable of a stir, though this proposition, seems already doomed this proposition seems already doomed to failure. The appointments for the cuto failure. The appointments for the en-suling year will, of course, be of moment, but these come in the regular order of things, though annually a source of pro-found speculation and no small worry. Many interesting rumors are affoat in connection with these appointments, sev-eral of them promising great upheavals, but as a rule they are of no surer founbut as a rule they are of no surer foun-dation than the gossip that precedes

The Institute.

Among the important changes in the assignment of ministers to duty that in which Richmond will be most interested is the temporary retirement of the Rev. George H. Wiley from the Institution for Christian Work, of which he has been superintendent for six years, and the appointment of the Rev. A. B. Sharpe, now of Manchester, to assume charge of the mission. The selection of Mr. Sharpe for this post is practically, assured, and unless a change is made at the last moment the Manchester man will take up and carry on the work for a year or two, by which time it is hoped the popular superintendent will have tion for Christian Work, of which he the popular superintendent will have sufficiently recovered his health to re-Mr. Wiley has been struggling against

Mr. Wiley has been struggling against adverse conditions for six years and has succeeded in the face of heavy odds in establishing the mission upon a sound basis, and in fact of instituting a work that has gradually spread to other cities in the South and that is now an important feature of denominational labors at many points. While he' has been accomplishing this his health has suffered. To-day the superintendent is completely broken down and has been peremptorily To-day the superintendent is completely broken down and has been peremptorily ordered by his physician to seek rest and quiet and a change of surroundings. The matter has been taken up by the directors of the institute and arrangements have been made to secure for Mr. Wiley a circuit in the mountains, where the duties will be less exacting, and his duties will be less exacting, and where he will be able to recuperate. It where he will be able to recuperate. It is expected that he will remain away at least a year and perhaps two years.

Several names of possible successors to Mr. Wiley have been mentioned, including those of the Rev. J. T. Mastin, superintendent of the Orphanage; the Rev. E. T. Dadmun, of Randolph-Macon, and the Rev. C. B. Galloway, of Barton Heights. attention than the speculation that gathers about every Conference.

It is currently reported that the Rev. J. Sidney Peters will leave (Prinity Church, of which he has been the pastor for one year. Mr. Peters is also connected with the Christian Advocate, the organ of the Conference, and has had to give a portion of his time to the affairs of the paper. There is also talk in the Union Station congregation of the likely removal of the Rev. R. M. Maxey. The sentiment here is evidently divided. The statement was flatly made in one quarter yesterday that. Mr. Maxey would leave, and it was as positively asserted in another that he would stay to continue the good work he has done. Changes at Broad Street, of which the Rev. George H. Spooner is pastor; at Denny Street, of which the Rev. Mr. McGee is pustor, are also thitted.

The Denny Street pulpit, it is said, will be assigned to the Rev. W. J. Williams, a former pastor of the church.

Up to this time there have been no other suggestions of important changes, Dr. W. J. Young is certain to return to Centenary, where he is much beloved. The same is true of the Rev. T. McN. Simpson at Clay Street; the Rev. J. B. Beity a Park Place and the Rev. J. A. Thomas at Laurel Street.

The conference is composed of clerical and lay delegates from all of the churches within its bounds. Bishop Galloway, of Mississippl, widely known and universally loved in Virginia, will preside. The proposition to divide the conference will likely cause much discussion, but, so far as can be ascertained, the majority will oppose the movement, Such a division, it was declared by a well-known Richmond minister a few days ago, would be disastrous to the hest interests of the conference.

It is true that hounds go every other day and horses only two or three times a week, but despite these rests the pace is beginning to tell, and many of the best hunters are incapacitated for work, either on account of being done up or from injuries received from the jagged stone walls of Pledmont Valley.

It is worthy of note that during the trials so far all three of the judges—Mr. Hallam L. Dr. Charles McEachran, master of the Montreal Hunt, in responding to a toast, paid the same splendid compliment to the Valley. The health of Colonel Dalagey, of Welbourne, prince of Sportsmen, was drunk, all standing, and it was stated that it was chitrely due to his influence that the match was brought about, and that the country was able to be hunted in comfort.

It would sound too much like the vaporings of a wild man to dwell on the possibility of President Rosewelt's receiving formal Democratic Indorsement in a national convention, but even the most conservative must admit that should he be a candidate again, as the prepregnative of the Republican party, the leaders of all other parities will have a hard time holding their following in line, and preyenting their jumping over the Republican fence. And the talk of Democratic Indorsement cannot be regarded as one whit more ridiculous than all this talk of some other man than Theodore Rosewelt as conditions now exist, being the Republican candidate in 1908.
